TEST PREPARATION INSTRUCTIONS

PET/CT SCAN: Refrain from all carbohydrates and sugars the night before the exam such as: potatoes, rice, corn, carrots, crackers, breads, beets, pasta, all fruits, juices and sodas. Your last meal before the scan should be high in protein and low in carbohydrates. No breakfast should be eaten if you have an appointment before noon. For 6 hours before your test, do not eat or drink (except water). Do not chew gum. Exercise such as jogging or weight lifting should be avoided 24 to 48 hours prior to your PET/CT Scan. Continue to take any medication prescribed by your physician. If you have been advised to take your medications with food, nothing more than a few soda crackers 4-8 hours prior to your exam. Avoid caffeine and tobacco for 24 hours prior to your exam. If you are, or think you may be pregnant, please discuss with your physician. Generally, PET and PET/CT scans are not performed on pregnant women. Please bring previous CT scans, x-rays and prior PET exams as well as pathology reports and your insurance information to your scheduled appointment. Wear warm, comfortable clothes as the scanner room is cool. Avoid clothes with heavy buckles or metal components. Please advise the scheduling staff if you are a diabetic when making the appointment as well as what type of medications you take to control your diabetes. Diabetic patients will have special scheduling and procedure preparations for the procedure. A glucose serum blood test will be taken on all patients prior to the procedure. We want to make your waiting time as pleasant as possible. Consider bringing your favorite magazine, book or music player to help you pass the time. Please leave your jewelry and valuables at home. Please contact our center for further instructions.

CARDIAC PET STRESS TEST: NO food or drink 6 hours prior to test. NO caffeine 24 hours prior to test including coffee, sodas, chocolate, decaffeinated products, Excedrin, etc. NO theophylline containing products 48 hours prior to test. NO dipyridamole (agrenox) 48 hours prior to text. NO COPD with reactive airways, severe bradycardia or symptomatic severe carotid stenosis. Please notify staff if you have COPD, active asthma, emphysema, wheezing, **or a severe bradycardia**. Please wear loose, comfortable clothing. Please allow 1 hour for the entire exam. We want to make your waiting time as pleasant as possible. Consider bringing your favorite magazine, book or music player to help you pass the time. Please leave your jewelry and valuables at home.

MYOCARDIAL VIABILITY STUDY ONLY: High carbohydrate meal 2 hours prior to appointment. Diabetic patients please take all prescribed medications with a high carbohydrate meal. Please increase carbohydrate and sugar intake 24 hours prior to exam as able.
